

Shared Value Initiative India

Shared Value Initiative India

Shared Value Initiative India (SVII), set up in 2015, is the exclusive Regional Partner of Shared Value Initiative in India.

Platform

The key objective is to bring together the business and community leaders on a common shared value platform. This platform connects, drives and facilitates the understanding of shared value practice among the corporate and community leaders, who are willing to contribute towards a better India. SVII hosts various sets of activities

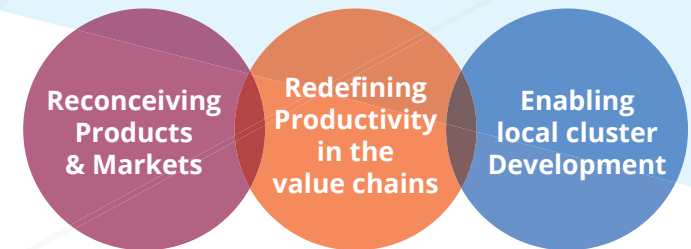

- **Shared Value Summit:** SVII's annual flagship summit featuring renowned leaders & experts in the shared value field. The next cohort is scheduled for third Friday of the month of November
- **Interactive Sessions:** Interactions in the form of seminars, leadership talks or interviews with leading experts in the shared value space are organised
- **Roundtables:** Exchange of ideas and information with top executives of organizations that are addressing societal issues through their business models.
- **Shared Value Award:** The award recognizes companies contributing to the society by incorporating shared value initiatives in their business models. The best ones get awarded via Porter Prize for creating shared value.
- **Shared Value Enterprise:** Organizations creating a considerable impact on society will be recognized as a Shared Value Enterprise after an in-depth assessment
- **Shared Value Index:** The index will map and measure leading companies working in the shared value space
- **Inclusive Business List:** This is launched annually with an aim to celebrate fifty such enterprises that are redefining the role of businesses in society and to encourage them to continue down the path of shared value creation. It is one of the key initiatives to identify, assess and recognise the organisations operating in India, which are creating a measurable socio-economic value by identifying and addressing social and environmental problems that intersect with their businesses.

Creating Shared Value Concept

Creating Shared Value (CSV) is a framework for creating economic value while simultaneously addressing societal needs and challenges. It is uplifting the under-served sections of the society through a business model at a profit.

CSV = Social Value + Economic Value
Creating Shared Value is addressing societal needs and challenges with a business model.

The concept was defined in the Harvard Business Review article 'Creating Shared Value', by Professor Michael E. Porter and Mark R. Kramer. Shared Value approach comprises the following three principles:

The Partners

The partners will get the exclusive opportunity to participate in the events & summits organized by SVII.

Partnership Benefits

Organizations will get the exclusive opportunity to be a part of the shared value movement and the network shaping the future of shared value in India, establishing a major competitive advantage.

SVII association will not only be a learning opportunity but you will also contribute to the practice, stay informed of the latest developments, and connect with cross-industry peers. The association benefits include

- Learning & Knowledge Sharing
- Contribution to Research
- Network Development
- Participation in Events
- Profiling & Shared Value Certification

Support Fee

We offer different tiers for support and partnership. The tiers are structured to ensure that the activities of SVII are sustainable and add value to the partner organisations and individuals participating in the program.

Partnership tiers are:

- Associate - \$10000 (paid annually)
- Supporter - \$20000 (paid annually)
- Executive Council - \$50000 (paid annually)
- Leadership Council - \$250000 (paid annually)
- Exclusive Partner - \$500000 (paid annually)

*Support commitment is for a minimum of three years
